

Investor Presentation | May 2018

Disclaimer

This presentation has been prepared by Babylon Pump & Power Ltd (“Babylon”), based on information available as at the date of this presentation. The information in this presentation is provided in summary form and does not contain all information necessary to make an investment decision.

This presentation does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any security in Babylon, nor does it constitute financial product advice or take into account any individual’s investment objectives, taxation situation, financial situation or needs. An investor must not act on the basis of any matter contained in this presentation but should make its own assessment of Babylon as part of its own investigations. Before making an investment decision, investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances. Babylon is not licensed to provide financial product advice in respect of Babylon securities or any other financial products.

Although reasonable care has been taken to ensure that the facts stated in this presentation are accurate and that the opinions expressed are fair and reasonable, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, neither Babylon, nor any of its officers, directors, employees and agents, nor any other person, accepts any responsibility and liability for the content of this presentation including, without limitation, any liability arising from fault or negligence, for any loss arising from the use of or reliance on any of the information contained in this presentation or otherwise arising in connection with it. The information presented in this presentation is subject to change without notice and Babylon does not have any responsibility or obligation to inform you of any matter arising or coming to their notice, after the date of this presentation, which may affect any matter referred to in this presentation. The cover image is illustrative only. The distribution of this presentation may be restricted by law and you should observe any such restrictions.

Forward looking statements

This presentation may contain certain forward looking statements that are based on Babylon’s beliefs, assumptions and expectations and on information currently available to Babylon management. Such forward looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results or performance of Babylon to be materially different from the results or performance expressed or implied by such forward looking statements. Such forward looking statements are based on numerous assumptions regarding present and future business strategies and the political and economic environment in which they operate in the future, which are subject to change without notice. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward looking statements or other forecast. To the full extent permitted by law, Babylon and its directors, officers, employees, advisers, agents and intermediaries disclaim any obligation or undertaking to release any updates or revisions to information to reflect any change in any of the information contained in this presentation (including, but not limited to, any assumptions or expectations set out in the presentation).

Babylon Pump & Power Ltd

- Babylon Pump & Power Limited was established as a specialist resources services company in Perth in February 2017 and listed on the ASX on 10 January 2018
- Babylon is focused in two complementary areas
 - Rental of specialty diesel driven pumping and power generation equipment
 - Rebuild and maintenance services for diesel driven equipment similar to company fleet
- Babylon is experiencing rapid growth servicing major mining and oil & gas service companies as well as major iron ore producers and equipment providers
- Experienced team with proven track record, lean structure and invested workforce position the company for further growth
- Key drivers of demand are the increased level of new assets following the resource sector investment boom, and deferred maintenance in recent years
- BIS Shrapnel estimates maintenance expenditure in Australia's resource industry will grow from \$6.6 billion in 2016 to \$10 billion per annum by 2021

Share Price Performance and Volume

Q3 FY18 Progress

- Revenue in Q3 FY18 was steady at circa \$0.5M, in seasonally the slowest trading quarter
- Funds have been deployed from the listing towards the acquisition of new equipment which is being refurbished and will be commissioned in the current quarter
- This equipment will deliver revenue growth in the current and future periods as it is deployed
- Q4 FY18 has started strongly with purchase orders received of \$0.8m and revenues of circa \$0.56m up to 30 April and a strong sales pipeline and order book
- Major one-off corporate costs are complete and ongoing costs contained
- Granted WA Electrical Contractors License EC13368
- The investments in equipment and mechanical services capabilities will underpin delivery of the Company's FY19 plans

Rental Projects

Key Rental Projects during the Quarter include:

- Dewatering equipment at Mt Keith
- Dewatering equipment at Hermes
- Flushing services at Gorgon
- Compression & drying for onshore oil & gas project
- Pumping, power and compressed air for onshore oil & gas project

Outlook includes multiple complex rental proposals >\$2M p.a. with decisions expected early FY19 covering multiple resources and geographies.

New Investment: Well Service Pumps

- 2 x units purchased from existing international network
- Units being refurbished and expected to be ready for utilization in FY19
- Specialized offshore frames, Zone 2 compliant, unique lifting capabilities
- Used for well service work, process and pipeline services, high pressure pumping

New Investment: Booster Compressors

- 2 x units currently being refurbished in house
- Pressure capabilities up to 2000psi
- For use with air or nitrogen
- Used in process and pipeline maintenance & commissioning, minerals drilling

New Investment: Compressors & Desiccant Dryers

- Specialty oil & gas applications:
 - Process & pipeline drying
 - Pre-treatment for N2 membranes
 - Minerals drilling
- Refurbished in house and currently on hire

Diesel Maintenance

- Revenue growth is expected from current clients as workforce and capability is expanded:
 - Top tier iron ore miner
 - Mining service contractors
- Underpins workforce and capability while growing rental business
- Maintenance services opening opportunities for dewatering and power generation
- Increased site work is spreading Babylon brand awareness
- New clients secured via professional network and ongoing business development activities
- Next step is to begin second shift to fully utilize Forrestfield facility

Business Outlook

- Q4 FY18 has started strong with purchase orders of \$0.8m and revenues of circa \$0.56m in April
- Strong sales pipeline and forward order book
- Specialty equipment entering the fleet in Q4 FY18 is expected to fully contribute to FY19 revenue
- Multiple complex rental proposals >\$2M for power and pumping are outstanding with decisions expected early FY19
- Diesel maintenance works are opening up opportunities for specialty rental
- Diesel maintenance demand continues to be strong with OEM constrained capacity and market consolidation providing opportunities for Babylon to secure work and new clients
- Demand is expected to increase Q1 FY19
- Many of Babylon's senior workforce are shareholders in the Company, contributing to a committed and supportive culture
